SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Referencing of the text is not uniform. Several lines/ a large part of the manuscript lacks exact/ relevant references. It is a mere collection of data rather than a well compiled, structured review article. Conclusion drawn is inadequate, weak, & vague, & does not provide a guideline/ way ahead for researchers. The article requires a lot of revision/ correction. Plagiarism issue: Not Detected, several facts stated in the manuscripts are not supported by adequate references/bibliography.	Referencing of the text is now uniform. Several lines/ a large part of the manuscript Now it has exact/ relevant references. Now it is well compiled, structured review article. Conclusion drawn is adequate & does provide a guideline/ way ahead for researchers. A lot of revision / correction of article has done I think there is no need to add more references for written text.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The article is vague, without a focus and direction	The article is not vague, with a focus and direction
