

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_32764
Title of the Manuscript:	Plasma biotinidase as a predictor for hepatic synthetic function impairment
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The article has attributes for acceptance for publication in the International Journal of Biochemistry Research & Review. The abstract is concordant with the text and small corrections marked in the text should be made. The authors need to clarify how to deal with false positives due to decreased biotinidase cases in asymptomatic heterozygous patients.	This need further study as it is a cross sectional preliminary study and this need to be more clarified using larger number and molecular and genetic assays.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
