

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_34136
Title of the Manuscript:	Perspectives of phosphate solubilizing microbes for plant growth promotion, especially rice - A Review
Type of the Article	Review paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	It is necessary to review some things in the text. Here are some questions that should be inserted into the manuscript: 1. Line 07: A reference should be inserted to the end of this sentence. 2. Line 03-15: Paragraph very large. 3. Line 48: What is the source of this figure? 4. Line 53: Speak more about the role of phosphorus in rice. 5. Line 62: What environmental hazards? 6. Line 73: What's the source of this table? 7. Line 88: What is the interaction between the bacteria solubilizes phosphorus and produces exopolysaccharides? 8. Line 94-96: Same reference. In this case, leave only one. 9. Line 109: Speak more about ENTOMOPATHOGENS.	1. Inserted accordingly 2. It has been shortened 3. Source of figure added 4. Few more lines added in relation to role of phosphorus in rice 5. Types of hazards mentioned in text 6. Table was constituted by the authors 7. Text added on the relation of phosphate solubilization and exopolysaccharide production. 8. Deleted duplicate reference. 9. Statement on entomopathogens has been elaborated.
<u>Optional/General</u> comments
