

SDI Review Form 1.6

Journal Name:	<u>International Journal of Biochemistry Research & Review</u>
Manuscript Number:	Ms_IJBCRR_35055
Title of the Manuscript:	Ethanol Extract of Solanum melongena Linn Fruit Mitigated Monosodium Glutamate-Induced Oxidative Stress
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	I feel only one method should be used in the result presentation which is just the tables.	Thank you. It has been reviewed.
<u>Minor</u> REVISION comments	I also feel the Introduction can be re-written in such a way that the review about the plant comes first before the MSG.	MSG started the article because it induced oxidative stress and the Solanum melongena Linn fruit followed as it possess the nutraceutical potential to ameliorate the Induced-oxidative stress study. <i>Solanum melongena</i> acted more on the role of the subject than the object in this study.
<u>Optional/General</u> comments	Well written article	Thank you.
