

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_35057
Title of the Manuscript:	Ameliorative Potentials of Solanum melongena Linn Fruit Ethanol Extract on Monosodium Glutamate-Intoxicated rats' Lipid Profile, Haematology and Heart Histology
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<i>I have reviewed the manuscript with the title</i> Ameliorative Potentials of Solanum melongena Linn Fruit Ethanol Extract on Monosodium Glutamate-Intoxicated rats' Lipid Profile, Haematology and Heart Histology.	I have included the eggplant to the topic for easier identification as suggested. The abstract is about 300 words now. The key words are five all together. The result and discussion that was place together is in line with the journal guideline. I would have love to separate them. I have adjusted the tables. The ethical approval is in the method. I have changed the ethical approval at the end of the paper to declaration of conflict of interest. No acknowledgement. The reference no 3, there are only six authors that is why I did not include et al. The guideline said use et al after the fix six authors. Thank you.
<u>Minor</u> REVISION comments	See the attached file.	I like this soft ware you are using and thank you for advancing science with your knowledge.
<u>Optional/General</u> comments
