PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The title should be changed Why the introduction is repeating? Please organize the introduction. I think the animal scarifying procedure is not according to WHO guidelines. Why figure 7 where are the other figures? However, it is better to represent weight change in a table.	1. Agreed, The title has been changed as suggested. 2. Introduction has been re-organized as requested. 3. No response, since the procedure of sacrificing animal with diethyl ether is still currently recommended by most international standards from other notable institution such as Johns Hopkins University (http://web.jhu.edu/animalcare/policies/ether.html) and also the WHO guidelines (http://apps.who.int/medicinedocs/en/d/Jh2929e/4.3.html). 4. 'Figure 7' has been changed to 'Table 1'.
Minor REVISION comments		
Optional/General comments
