SDI Review Form 1.6

**PART 1: Review Comments**

|                                     | Reviewer's comment                           | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | Corrections are indicated in the manuscript. | <p>1. Arrange the keywords alphabetically<br/>Keywords have been organized alphabetically in the manuscript as it can be found highlighted in different color</p> <p>2. Follow the journal style for citation<br/>Journal style for citation is now provided in the text</p> <p>3. Why the cultivars are different in 3 years.<br/>Cultivars are different only in the first year (2007) . It was impossible to obtain those cultivars for subsequent years, that's why we changed, but the other 2 years, similar cultivars were used. The suffix 0 and 1 means first and second generation of the same cultivars.</p> <p>4. Follow the journal style for figures and tables.<br/>They are now provided in the manuscript according to the journal style</p> <p>5. Follow Journal style for references<br/>All references are now provided according to the journal style, in brackets and presented in order they are cited in the text.</p> |
| <b>Minor</b> REVISION comments      |                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Optional/General</b> comments    |                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
