

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_37256
Title of the Manuscript:	Alterations in the bio-membrane of Libyodrilus violaceus following exposure to crude oil and its fractions.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author(s) should write a significant statement in the manuscript on the impact of altered phospholipid content in membrane of Libyodrilus and how it may affect the environment viz a viz environmental pollution.	Done. Statement highlighted between line 238-246 of the manuscript
Minor REVISION comments	Line 169 check the sign of significance	The sign of significance ($p > 0.05$) in Line 169 shows that there was no significant difference (no significant increase nor decrease) in the results discussed at the instance.
Optional/General comments	Some of the data should be presented in bar chart for easy understanding and clarity.	OK, I have imputed charts for analysis of Heavy metal, Poly Aromatic Hydrocarbon in the crude oil sample. I also included charts for weight changes in the earthworms (Libyodrilus violaceus)
