FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Majority of the corrections suggested were duly made in the revised version of the manuscript, but there are lots of typographical errors. Most of the words in the manuscript were chocked up together. USE SPACING TO CAREFULLY SEPARATE THE WORDS IN THE ENTIRE MANUSCRIPT! The authors should use an updated version of Microsoft Office in the preparation of the manuscript. Line 62: Use "were" instead of "was" Line 219: write "institute" not "institue" I suggest title should be: Phytochemical Properties and Effect of Temperature on Proximate and Mineral Composition of Curcuma longa Linn. Rhizomes Ethanolic Extract
