

**SDI FINAL EVALUATION FORM 1.1****PART 1:**

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_32764
Title of the Manuscript:	Plasma biotinidase as a predictor for hepatic synthetic function impairment
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Dear Ms Bag. Below final comments on the manuscript Ms_IJBCRR_32764 (Plasma biotinidase as a predictor for hepatic synthetic function impairment). With the corrections requested by the other reviewer the article has improved considerably. After making the final 3 adjustments in the text, I consider that the article will be suitable for publication. Sincerely Dr. Eurico Camargo Neto FINAL COMMENTS: Authors should correct the lack of space between the last word or number and the beginning of the parentheses in the text and table 1. Page 1 penultimate line The total duration of the study was thirty months from July 1st 2011 up to December 31st 2013). Correct for: months (from July 1st 2011 up to December 31st 2013). Page 4 item 3, second line: ...multiskan EX microplate photometer Would not it be photometer? Page 4: Measurement of plasma biotinidase [using enzyme-linked immune-sorbent assay (ELISA) The technique is indicated. Which ELISA?. The product used MUST be indicated. The kit manufacturer is missing. Which kit? (which reagents were used?). This is basic in articles of this nature.
