PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Title: In titles of manuscripts the scientific names come first including the authority and then the common names in parenthesis. The author should follow that pattern as I have changed them. Abstract: In line 2, the author talked about two species but mentioned only one <i>Manihot esculenta</i> Crantz. Is he talking about one species with two varieties or what? The author should please write out this properly. The author should try to describe the results before bringing in the Tables. References: This should follow a particular pattern. The authors should strictly adhere to the format of the journal for their list of references.	
Minor REVISION comments		
Optional/General comments	Other corrections have been indicated accordingly.
