

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_37950
Title of the Manuscript:	Levels of some mineral elements/heavy metals in some branded canned lager beers and burukutu (native beer) samples obtained from Kugiya market, Nigeria
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Comparison of the data on heavy metal levels in the analysed samples with the "safe levels" is presented in Results as a speculation with no data on "safe levels" from authoritative sources (p. 3-4, l. 81-89). There are some relevant data in Discussion (p.5, l. 135-137), but they are presented in the form unsuitable for comparison. It would be good to include the "safe levels" into the Tables. 2. The text needs significant language correction. 3. Title. "Levels of some mineral elements/heavy metals in some..." → "The heavy metal levels in some..."	
Minor REVISION comments		
Optional/General comments
