General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	- There are many grammatical and typographical errors in the text. General rules about manuscript preparation were not applied (see pdf file). - Materials and Methods section is weak, especially "lipid dosage" part. - Results and Discussion sections are also inadequate. Figures containing pictures should be organized again.	Grammatical and typographical errors are corrected lipid dosage is described Discussion is improved Figures are improved
Minor REVISION comments		
Optional/General comments	- General expression of the manuscript is also in adequate. - It should be improved.
