

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_38639
Title of the Manuscript:	Mango (Mangifera indica) Seed Kernel: Proximate Properties and Effect on Normal and Monosodium Glutamate-Hepato-Compromised Wistar Rats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	-In the abstract, an additional group is mentioned(0.3g/kg MSKE and 8g/kg MSG) which is not in the experimental groups -Material and Method section is repeated -The extracts did not show a strong improvement in liver parameters except for ALT. Values for AST, ALP and TBil are very high compared to control which indicates liver toxicity. The author should clarify - There are spelling mistakes. Revision is needed	MSG (8g/kg) + MSKE (0.3g/kg) group and the repeated material and method were deleted. Thank you. That limited the study conclusion hence choice of the word 'probably' in the conclusion. Thank you. Spelling mistake(s) for instance synthestic instead of synthetic were duly corrected. Local names for instance <i>Orie ugba</i> were in italics. Thank you.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
