

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_40221
Title of the Manuscript:	PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR-ROLE IN CHEMOTHERAPY
New title of the Manuscript:	PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR-ROLES IN AMELIORATING DISEASED CONDITIONS
Type of Article:	Review Paper

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I could not find the authors replies to the comments and further it seems that rev2 is the same. Please inform me on this matter.	This paper reviews the effects of PPAR. HOWEVER I have two comments: 1. There is only one reference from 2017, the rest were before 2013. That means there is a gap of at least five years from the literature. 2. They took the figures from different paper. But they did not give references or whether they took permission from the authors and/or journals. Noted. Recent authors have been cited 3. A further figure depicting the effects of PPAR's to inflammation should be added. It has been done
