November 12, 2012

OBIA, ONYEBUCHI

Department of Physiology,
Faculty of Basic Medical Sciences,
College of Health Sciences,
University of Port Harcourt,
Choba,
Rivers State.

Dear DrObia,

ETHICS REVIEW OF "EFFECTS OF HONEY ON BLOOD PRESSURE, BODY WEIGHT AND SOME BIOCHEMICAL PARAMETERS OF ALLOXAN-INDUCED DIABETIC RATS."

I write to inform you that following the ethics review of your study protocol of the above title, the Research Ethics Committee of the College of Health Sciences, University of Port Harcourt, feels satisfied with the topic and potential benefits of the study. The stated objectives are attainable and your protocol as it relates to the number and treatment of animals raises no ethical issues of concern.

Accordingly, the corrected version of your study protocol has been approved. Please ensure that if you decide to make any changes to this study protocol, you notify the Ethics Committee in writing.

Kindly accept my congratulations on behalf of the Ethics Committee. We look forward to working with you again and wish you all the best for the future.

Yours faithfully,

Prof IM Siminialayi
