Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Ethical Issues: Yes, Author should mention ethical approval reference number and date.	The Postgraduate School of University did not issue any certificate for ethical clearance, rather they ensure that any research proposal is passed through the Research and Ethics Committee who clears the work before the postgraduate student commences the research. This work went through these processes in May 2013. In 2015 the dissertation was assessed and the student was awarded the degree. Therefore I don't have any certificate to present at this time.
Minor REVISION comments	Have you done toxicity study? How you calculated dose? If you calculate dose as per previous study, then should mention in manuscript.	Toxicity study was done and lowest dose was calculated as 10% of the LD50.
Optional/General comments	However manuscript is good written and can be accepted.
