

SDI Review Form 1.6

Journal Name:	Asian Journal of Biology (for international journal of biochemistry research and review)
Manuscript Number:	Ms_AJOB_37348
Title of the Manuscript:	Gamma Glutamyl Transferase- A Link Between Oxidative Stress And Periodontitis In Smokeless Tobacco Users And Non Users With Chronic Periodontitis
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	the topic is quite interesting; however, it is important to clarify the normal and altered GGT values to name it as a risk marker	The normal range of GGT has been mentioned on page 3 of pdf and highlighted in yellow
<u>Minor</u> REVISION comments	it is also important to achieve a comparison of periodontal clinical parameters with GGT values to determine the point at which GGT begins to alter according to the severity of periodontal disease.	The correlation between GGT and periodontal parameters has been added depicting in form of table and figures under results on page 6 and 10 of pdf.
<u>Optional/General</u> comments
