

**SDI Review Form 1.6**

|                          |                                                                                                                  |
|--------------------------|------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">International Journal of Biochemistry Research &amp; Review</a>                                      |
| Manuscript Number:       | Ms_IJBCRR_37522                                                                                                  |
| Title of the Manuscript: | Effect of traditional and improved cassava processing on Cassava Derivative Products in Central African Republic |
| Type of the Article      | Original Research Article                                                                                        |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                        | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <ul style="list-style-type: none"> <li>- There are many grammatical and typographical errors in the text. General rules about manuscript preparation were not applied (see pdf file).</li> <li>- Materials and Methods section is weak, especially "lipid dosage" part.</li> <li>- Results and Discussion sections are also inadequate. Figures containing pictures should be organized again.</li> </ul> |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      |                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                               |
| <b>Optional/General</b> comments    | <ul style="list-style-type: none"> <li>- General expression of the manuscript is also in adequate.</li> <li>- It should be improved.</li> </ul>                                                                                                                                                                                                                                                           |                                                                                                                                                                               |
