

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_38498
Title of the Manuscript:	Cardioprotective effect of enalapril on isoproterenol-induced myocardial infarction in rats
New title of the Manuscript:	Enalapril confers protective effect on isoproterenol-induced myocardial infarction in rats through downregulation of cardiac troponin, C-reactive protein, upregulation of IL-10 β as well as anti-oxidant and anti-inflammatory activities
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I have re-read the revised manuscript and cannot give the paper a higher grade than that previously awarded. The authors have chosen to ignore the comments made in my initial review; however, they have been 'noted'. Interestingly, they have added commentary to the already lengthy text. I still think the Introduction should be more focused and the Discussion shortened.
