

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_40221
Title of the Manuscript:	PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR-ROLE IN CHEMOTHERAPY
Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	I consider that the research work is of great scientific interest which deals with the importance and uses of Peroxisomes. Some suggestions concerning the form that must be treated and improved for the final presentation, as well as references bibliographies that must be written. - The abstract must be neat and developed in such a way as to give the structure of the paper, in addition that it must not contain any references. - Please put a table of content after the abstract - Please re-articulate the text which makes some paragraph difficult to understand, as for example the following sentence: <i>"Inflammatory conditions are mainly characterized by activation of macrophages and 205 monocytes at the injury site which subsequently increase the release of proinflammatory 206 mediators like Tumor necrosis factor-α (TNF-α)".</i> - Please to make numberings for the titles. - Please to keep the same shape in the references. - The authors are asked to add the purpose of this review, it is to say how will be used for the future research also they must add a paragraph to mention their new touch compared to the other reviews paper which treat the same subject - Favorable opinion for the publication of this work in the International Journal of Biochemistry Research & Review .	
Optional/General comments
