

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_43386
Title of the Manuscript:	Correlation Of Sialic Acid Levels With Lipid Profile And Anthropometric Variables In Type 2 Diabetes Mellitus And Diabetic Nephropathy
New Title of the Manuscript:	Correlation Of Serum And Urine Sialic Acid Levels With Lipid Profile And Anthropometric Indices In Type 2 Diabetes Mellitus And Diabetic Nephropathy
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors have done a very nice job of responding to previous concerns, particularly in reorganizing the tables and providing appropriate information about the subjects. There are a couple of minor corrections needed. 1. Line 73: Rather than saying informed consent was "sought," it is more appropriate to state that consent was "obtained." This is because the subjects could not participate if they did not agree to the consent request. 2. Line 79: "ehrlich's" should be capitalized. 3. Some revision of English grammar is needed. There are also some spacing errors.
