

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBcRR_38602
Title of the Manuscript:	Systemic Effects of Nigerian Bituminous Coal Fly Ash in Albino Rats: Serum Biochemistry and Histopathological Evaluation
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	In material and methods point 2.2. Animals and treatment should clarify which are the group I, II and III mice is not clear when reading the results. Which belongs to each group? Why do you administer the sample to the mice at 14 and 28 days? The biochemical indices they showed that ALAT, ASAT and SAP were not significantly in increased, as shown in figure 1, should clarify why? Some human studies have been conducted who have inhaled bituminous coal	
Optional/General comments	Some human studies have been conducted who have inhaled bituminous coal
