SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	A good study suggesting that adding functional massage to routine physiotherapy for management the Subacromial impingement syndrome provides functional benefits. However, I have the following suggestions: <ol style="list-style-type: none">1. Can the topic change to “Functional massage of the teres major muscle in patients with subacromial impingement syndrome: A randomized controlled case series study”?2. Add “Functional massage” to key word.3. Can you be specific about the therapeutic exercise, frequency, dosage and duration?	Point 1: Accepted Point 2: Included Point 3: We have included additional information on this point (lines 114-115)
<u>Minor</u> REVISION comments	Some typos	All the manuscript has been edited by an external professional.
<u>Optional/General</u> comments
