SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The issue addressed in the article is relevant and should be made available to the scientific and clinical community. It is an alert to the dangers of the combination of drugs that should not be overlooked.</p> <p>In my opinion, the authors should present a better bibliographic review that demonstrates better the risks of the drug combination. They should also introduce other studies on the effects of combining drugs, even if they have not been the same drugs used.</p> <p>Ethical issues: Although the patient's name has been omitted, authors should describe how obtained permission to use the information.</p>	
<u>Minor</u> REVISION comments	Authors should better explain how they obtained permission to use the clinical information in the study.	
<u>Optional/General</u> comments
