Manuscript Number:	<b>Ms_IJMPCR_34210</b>
Title of the Manuscript:	<b>METASTATIC SIGMOID COLON CANCER PRESENTED AS INCARCERATED INGUINAL HERNIA – CASE REPORT</b>
Type of Article:	<b>Case study</b>

### PART 2:

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>The authors improved the description and the discussion of this case substantially. However, their writing still deserves a revision because the manuscript has many grammar errors regarding the syntax and parallelism. They begin sentences with numerals when we should spell the numbers at the beginning of sentences. They also make excessive use of passive voice making some statements weak and hard to read.</p> <p>I would like to suggest the use of appropriate keywords. I went to MeSH terms of PubMed, and I have the following suggestions: Adenocarcinoma, Carcinoma, Colon Sigmoid, Groin, Inguinal hernia</p>	<p><b>Thank you for your comments.</b></p> <p><b>The writing and the grammar have been revised once again and corrected. The key words have been changed according to your suggestion.</b></p>
