

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	2014_IJPSS_14410
Title of the Manuscript:	USE OF COAL DERIVED HUMIC ACID AS SOIL CONDITIONER TO IMPROVE SOIL PHYSICAL PROPERTIES AND WHEAT YIELD

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors have incorporated most of the comments. There are some minor typo/grammar issues though, which the authors can easily address. For example, headings are shown in smaller fonts while sub-headings are shown in larger fonts (It should be the other way around.</p> <p>Also, most important results (findings) indicated in the last few lines of the conclusion should also be included in the abstract as well. The abstract is the first thing a reader will look at before deciding (or not) to read the whole paper and interesting findings numbers) included in abstract will entice the reader to read the whole paper.</p>
