

Editor's comments:

It seems that the authors have addressed all the questions pointed out by the reviewers. However, before the manuscript can be accepted for publication the following minor changes should be done:

- Change "post harvest" by "post-harvest".
- Change "Agbani Village" by "Agbani village".
- Leave a space between number and units.
- Change "quanlitative" by "qualitative".
- Change "antimycotic" by "anti-mycotic".
- Change "fungitoxic" by "fungi toxic".
- Figure 1: the names of the fungi should be in italics.
- Figure 2: the names of the fungi should be in italics.
- Check spelling throughout the whole manuscript.

Author's comments:

All the issues pointed out in the manuscript have been addressed.
