SCIENCEDOMAIN international

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science	
Manuscript Number:	Ms_IJPSS_24271	
Title of the Manuscript:	The Effects of Organic Acid Application in Soil on Extractable P and Eggplant (Solanum melongena) Yield	
Type of the Article	Original Research Article	

General guideline for Peer Review process:

This journal's peer review policy states that \underline{NO} manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer,
		correct the manuscript and highlight that part in
		the manuscript. It is mandatory that authors
		should write his/her feedback here)
Compulsory	Topic: The Effects of Organic Acid Application in Soil on	
REVISION	Extractable P and Eggplant (Solanum melongena) Yield	
comments	Subject Appropriateness of the Manuscript	
	The topic of this manuscript falls within the scope of the Journal.	
	Detailed comments to the author	
	This study investigated two LMWOAs, including oxalic and citric	
	acid. The ability to mineralize fixed P in soils and the effects on	
	production of eggplant when compared to conventional triple	
	superphosphate fertilizer (TSP) was studied in this manuscript.	
	1. The English of the manuscript is not very good. It needs	
	some modifications by a native English speaker.	
	2. There are so many informal English words in the	
	manuscript, such as "Soil tests of the Houston Black soil" in the	
	abstract. All the informal words should be modified into formal	
	ones.	
	3. More organic acids need to be studied to investigate the Effects	
	of Organic Acid Application in Soil on Extractable P and Eggplant	
	(Solanum melongena) Yield	
Minor REVISION	,	
comments		
Optional/General
