SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Revise the abstract as suggested, analysis method of data should be given in the Materials and Methods. Soil depth should be given in cm rather mm in the whole manuscript. First letter of key words should be capital. Repetition of results of different workers should be avoided in the text. Materials and methods section should be revised very carefully as suggested. The mistakes and corrections mentioned in the side of lines, should be incorporated for improvement of article. Title of tables and conclusion should also be revised as per suggestions.	
Minor REVISION comments	Results may be presented in the past tense, not in the present tense.	
Optional/General comments	Paper after revision, may be published. Follow the pattern of journal for writing references in the reference section. Follow the one pattern for writing the journal's name either short form or full form.
