

Editor's Comments:

Major Sections of the Manuscript are lacking

- No "Materials and Methods"
- No "Results and Discussion"

Introduction

- The Justification and Objective(s) of the study are absent!

Referencing

- In text referencing, e.g. ...pumped outlet, [1]
The 'coma' should be removed after outlet.
- Main Reference Section:
E. g. Ref. Nos. 1, 2, 3 and 4 are not well done.

Figures and Tables

Figures and Tables should be written in the text as:

- Figure 1; Table 1 but not as figure 1; table 1

DECISION

The author(s) should take pains to look at the style of the Journal and conform.

Samples of published articles should act as guide.

Revision of the paper in line with the accepted format is imperative!
