

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_32845
Title of the Manuscript:	Spread Sheets for Laterals Spacing Design, With an Application on Mit Kenana Area in Egypt
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Where is the soil physical particularly saturated hydraulic conductivity and soil bulk density analysis before and after the new approach used?</b>  <b>Physical analysis is very important in drainage studies</b>	<b>Yes, physical analysis is very important in drainage studies. The values of hydraulic conductivity required for laterals spacing design are included. Unfortunately, data after drainage system are not available.</b>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	Theoretical economic evaluation of this approach will benefit the paper	May be for other cases.
