PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is very good and it gives room for other researchers to work on but the major corrections are required in Abstract, Materials and Methods parts of the manuscript.	As per the guidelines, I summarized and restricted to word count in the matter of abstract. In case of materials and methods, every aspect covered and detailed methods description is beyond the article scope, so I concised by mentioning the standard procedures.
Minor REVISION comments		
Optional/General comments	Author(s) need to do the necessary corrections.
