

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_37222
Title of the Manuscript:	Correlation and regression analysis of various viability and vigour parameters in coriander (Coriandrum sativum L.)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Citations in the text should be, i.e. [1] no (Sahib [1])</p> <p>In the last paragraph of the introduction lacked to put the objectives.</p> <p>The methodology is unclear.</p> <p>Plant growth regulators (PGRs) was treatment or crop management?</p> <p>Standardize: in line 68 11th e in line 78 5th line 79 14th</p> <p>In line 68 standardize the unit: size 3.0 × 1.5 m at spacing of 0.5 × 0.2 m.</p> <p>Standardize: in line 78 (20°C), in line 84 (80±1°C)</p> <p>Standardize: in lines 97 and 103 (OD g⁻¹ ml⁻¹)</p> <p>Suggestions to improve the methodology: Insert a subtitle: 2.1. Description of the Study Site Inform of the study site, the season, the climatic conditions</p> <p>Insert a subtitle: 2.2. Experimental Design and Treatments</p> <p>Insert a subtitle: 2.3. Agronomic Practices Inform the type of soil, date of sowing and the procedures used during the experiment</p> <p>Insert a subtitle: 2.4. Variables Measured</p> <p>Insert a subtitle: 2.4. Variables Measured</p> <p>Insert a subtitle: 2.5. Statistical Analysis Was written in the text, statistical analysis of data collected during the study was done by applying the technique of analysis of variance, but only the correlations are presented, have to explain in more detail the procedures used.</p> <p>Table standardize: Table has no vertical lines and horizontal only at the top and bottom. View published papers in Journal.</p>	<p>Corrected</p> <p>Added</p> <p>Corrected</p> <p>Second treatment was foliar application of plant growth regulators at the time of fifty percent flowering</p> <p>Plot size per hectare and spacing between line to loner and plant to plant, corrected Referred by ISTA Referred by ISTA</p> <p>Corrected</p> <p>Corrected</p> <p>Corrected</p> <p>Corrected/added</p> <p>Corrected</p>
Minor REVISION comments	<p>In abstract: in line 13 replace Seedling per seedling</p> <p>In Keywords: coriander appears in the title.</p> <p>Put a space before and after titles and subtitles.</p> <p>Uppercase titles, i.e. 1. INTRODUCTION no 1. Introduction</p>	<p>Corrected</p> <p>Corrected</p> <p>Corrected</p> <p>Corrected</p>

SDI Review Form 1.6

<p>Optional/General comments</p>	<p>The methodology is not clear, leaves much to be desired. Nowhere in the methodology does it say that an experiment was conducted in the laboratory, but in the conclusions it appears that an experiment was conducted in the laboratory.</p> <p>In the item Results and Discussion only the results are presented, little discussion with papers of the literature.</p>
