SDI Review Form 1.6

Journal Name:	**International Journal of Plant & Soil Science**
Manuscript Number:	**Ms_IJPSS_33135**
Title of the Manuscript:	**Effect of N, Zn and B Levels on Yield, N, Zn and B Content and their Uptake and N Use Efficiency in Maize –Wheat Sequence in a Vertisol of Central India**
Type of the Article	**Original Research Paper**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

<mark>**PART 1:**</mark> **Review Comments**

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	1- There are many small mismatching in calculating uptakes for both plants. These might be due to excel calculating. But it is important to give the results what we get the present values given on the tables. So please check and revise the values one by one.	
Minor REVISION comments	1- Why "@" is used in many part of the mns. Is it journal rule.??. 3- Please clarify the equation for calculating the N use efficiency. For this benefit from the " **Effects of different irrigation programs and nitrogen levels on nitrogen concentration, uptake and utilisation in processing tomatoes (*Lycopersicum esculentum*)**". 4- please use "concentration" instead of "content". **5- check table 3. There is a slip in column 11**	
Optional/**General** comments
