

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_36064
Title of the Manuscript:	Effect of soil nutrient status on yield and quality of Sweet orange (Citrus sinensis (L.) Osbeck) in YSR district of Andhra Pradesh
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The discussion for the 'Micronutrients' and 'Correlation of soil nutrient status with fruit yield and fruit quality' sections are weak. Should be given additional comments based on the literature for the discussion. Some recommendations should be given in the conclusion section.	
Minor REVISION comments	The text should be published with minor changes listed below. 1. Line 67: viz..? (not clear) 2. Line 68: Should be used '0.005 M' instead of 0.005M (lack of space) 3. Line 111,112, 113, 114 and 131: Should be used 'mg kg ⁻¹ ' instead of 'mg ha ⁻¹ '	
Optional/General comments	Determination of the effects of soil nutrient status on yield and quality of Citrus fruits is important for contribute to science. I think that the data was adequately obtained and analyzed. However, I suggest that the text should be print with minor corrections.
