

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_39091
Title of the Manuscript:	The Phenology Of Flowering And Ripening Of Almond Cultivars Nonpareil, Texas, Ferraduel And Genco In Herzegovina
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The paper is important to improve the almond crop management practices</p> <p>The objectives are clear and precise. The materials and methods are poorly detailed, the methodology for analyzing the results is not explained. There is no statistical analysis of the differences between varieties and years. It is not known if the difference between the days of flowering in each of the years is significant, nor is a hypothesis to explain or future studies of interaction with some environmental variable responsible for these differences.</p>	We agree with your suggestions and comments. We corrected the research paper.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	A statistical analysis of the results would improve the scientific quality of the paper
