|--------------------------|--|
| Manuscript Number: | Ms_IJPSS_35524 |
| Title of the Manuscript: | Cost-Effectiveness and Water Use Efficiency of Groundnut and Wheat under SAT region of Central India |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that <u>NO</u> manuscript should be rejected only on the basis of '<u>lack of Novelty'</u>, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|------------------------------|---|--|
| Compulsory REVISION comments | | |
| | The work seems good to me, only that these are | |
| | from 2012-2013, I would like if possible to present | |
| | current data, since the climatic change can raise | |
| | the data presented and the constitution of the land | |
| | and the amount of rainwater. | |
| Minor REVISION comments | | |
| | In the discussion of results, mentions that in the | |
| | highlands where the largest crop is developed, but | |
| | at the same time mention is made of the loss of | |
| | rainwater due to runoff and deep percolation, how | |
| | is the irrigation water retained. | |
| Optional/General comments | | |
| | Consider that including a discussion of results | |
| | would give the missing value to the article | |
| | | |
