

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_42408
Title of the Manuscript:	Studies on performance of nitrogen and potassium on growth, nutrient content and uptake of Sweet potato (<i>Ipomoea batatas</i> . L.) in Vertisols of Maharashtra
New Title:	Effect of graded levels of nitrogen and potassium on growth, nutrient content and uptake of Sweet potato (<i>Ipomoea batatas</i> . L.) in Vertisols of Maharashtra
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Line 13: use "...uptake for optimum growth..." Keyword still contain "and", please split: Nutrient content; uptake This statement "The present investigation conducted with Main objective..." is vague. Please correct! The tables are not still in the correct form. There should be no gridlines, two lines above (covering the column headings), and one line below (at the end of the table). Check articles from the journal for reference. Also, avoid repetition: once unit is giving on the title, there is need repeating it inside the table; if it's giving on the column, no need to put it on row, etc. The referencing method is not acceptable yet. IJPSS uses numbering method. Please consult author's guide and relevant literatures. Authors should kindly review the entire work for corrections of minor errors including: sentence structure, grammar, tenses, omission of words, etc. This will aid easy understanding of the work. I am not yet satisfied with the conclusion; it is still scanty and does not bare the major findings of the work.
