

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_43348
Title of the Manuscript:	PRODUCTION OF SEEDLINGS OF FAST - GROWING TREES <i>Paulownia</i> sp. Sieb. & Zucc
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Author should recast the title. 2. References and sources of information should seriously considered. 3. abstract should be in one paragraph; results and recommendations of the research has not been capture in abstract. 4. italize et al., as <i>et al</i>; The author should be able to understand the difference between genus and species. If you are refering to a specific species of <i>Paulownia</i>, pls state the species; and if you are refering to all the species of the genus <i>paulownia</i>, then mention all the species. Note: scientific name(s) should be italize such as <i>paulownia</i> sp 5. Details of the study area should be mention with coordinates, longitude and latitude. If possible, the map of the study area should be included. 6. Scientific method of presenting results on tables should be use, i.e. all tables should have only 3 horizon lines only without vertical lines. 7. Titles/subtitles of figures, plates or pictures should be under not above 	<p>I agreed and sent You correction I made in manuscript.</p> <p>I did not agree with the statement that work is plagiarized. <i>Paulownia elongata</i> is in Bosnia and Herzegovina last few years and we are the only one on the territory of former Yugoslavia working commercially on its propagation by tissue culture . We have made the recipe for micropropagation ourselves, and the protocol for its <i>in vitro</i> reproduction as well as acclimatization.</p>
