**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The article is based on one-season field experiment. Title and abstract are appropriate to the study. Sufficient background information and justification were provided in the introduction section with defined objective. Results are nicely presented and interpreted; however main effects of N and P are not given. Discussion is scientific with supporting references, some irrelevant references should be replaced. Conclusion is sound and informative, however dose of 120 kg N ha <sup>-1</sup> needs to be checked. References need revision according to the guidelines. Parameters like economics, N and P content and uptake by the crop and post-harvest status of N and P in soil should be added.	Corrected as per comments.
<b>Minor</b> REVISION comments	Language needs to be improved. Some sentences should be rephrased. Some fashion words should be deleted/replaced. Indicated in the manuscript.	
<b>Optional/General</b> comments	Punctuations need to be attended.	Thank you for your review and comments
