General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments YES	<p>The title and especially abstract do not summarise the methods and result but abstract only gives an introduction and problem statement. The abstract is more of that of a review</p> <p>There are many typographical errors and errors in constructing sentences in English The data collected and statistical analysis were not indicated in the materials and methods</p> <p>The work is not well discussed. Only one reference was made the results of the three methods of propagation were not well articulated and compared in the discussion</p>	
Minor REVISION comments		
Optional/General comments
