PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Researchers were not mentioned the women were menopausal or post menopausal, is required to mention. Or if both, the ratio or number is required to mention, because is directly related to Vaginal Discharge in Women. 2. The age group is also a factor, the researcher was not mentioned anywhere. 3. The researcher mentioned in the manuscript (line no. / row 78) the therapeutic effects and adverse effects of Dazel-Kit, after 14 days observation. But according to prescription law, after 7 days antibiotics therapy is automatic stop. And again after observation if medical practitioners recommend, then it can continue again 7 days, but researcher, shown the therapeutic effects and the adverse effects after 14 days observation, so is required to mention first after the seven day observation and next after 14 days observation. 	
Minor REVISION comments		
Optional/General comments
