| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      | <p>:</p> <p>1. This is an epidemiological study of public health interest.</p> <p>Corrections:</p> <p>1. Under heading Methodology - <b>All pregnant women are not patients</b>. Language corrections required</p> <p>2. Under discussion - Percentage in words may be avoided. (eg - not twenty eight percent it should be 28%)</p> <p>3. Latest references may be added in the discussion.</p> <p>4. To check for correction of references (eg - reference no -18)</p> <p>5. Under methodology- The expansion of DIPSI should be given.</p> | <p>Corrected</p> <p>Corrected</p> <p>Thanks</p> <p>Thanks</p>                                                                                                                               |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                             |
