SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract: Keywords should be in <i>italics</i>. Introduction: A more integrated appraisal of literature can be added from "A comprehensive review on metabolic syndrome" or "Influence of Dietary Habits on Health Risk Factors. Research Journal of Biology. 2014 May; 2(1):43-48. Discussion: Meticulous efforts are required to improve this section. The present study results should be discussed in similar and contrary relations with other researcher's work. Study limitations, Conflict of interest, financial grant, author's contribution and acknowledgment: Not done.	Keywords has been put in italics. The literatures of "A comprehensive review on metabolic syndrome" or "Influence of Dietary Habits on Health Risk Factors" has been reviewed/referenced, and incorporated into the discussion section. Study limitations: "Our study had some limitations that warrant indication. First, findings originated from a cross-sectional study does not necessarily signify causality. Secondly, our study was carried out among government employees. Therefore, the findings obtained may not be applied to the general population." Conflict of interest, financial grant, author's contribution and acknowledgment has been incorporated.
Minor REVISION comments	Typographical and grammatical errors need attention.	The manuscript has been revised completely
Optional/General comments
