SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Abstract: Please add aim of the study. NIV in line 8 is stand for? Delete the 'six minute walk test' in the keyword. Please explain the H1N1 virus, is it belongs to old seasonal flu H1N1 or H1N1 pandemic 2009? Introduction: Please add more explanation what is the importance / rationale of the research. Is it a study or case report? Method: Please add time and place of the study clearly (not just say 'our clinic'). Results: Please put table in different page, so the reader can see the table clearly in one page. Discussion: Please add constrain of the study. Lines 182 – 193 in the conclusion are more likely a discussion. Please add more discussion compare with another study of H1N1 infection. Conclusion: The conclusion is too long. More of the sentences are belongs to discussion. The conclusion is answering the aim of study. From all of the sentence, the conclusion is only the sentence in line 194-196.	Dear Reviewer , Many thanks for the comments , do appreciate . 1. Added aim to the abstract 2. Wrote full form of NIV 3. Deleted six minute walk test. 4. Specified H1N1 pandemic era 5. Study – follow up case series. 6. Time and place have been updated 7. Updated discussion and conclusion
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
