SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Few typos should be corrected.	
<u>Optional/General</u> comments	This is very useful and informative audit has been done. At many paediatric units renal functions test are not done routinely, thus highlighting this issue is commendable. In Table 4, there were 6 cases of chronic renal failure, would be nice if authors differentiate the criteria of labelling chronic in these children.
