SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The topic addressed in the manuscript treats an important concern in public health. The study from a scientific point of view seems to be well done and presents good results, from where to derive valid conclusions. Introduction presents background information, and the motivation for this study. Overall strategy and analyses is well-reasoned and appropriate to accomplish the specific aims. Materials and methods should be complete enough to allow possible replication of the research. So, a sentence to explain how authors perform multivariate analysis should be added. The list needs some attention according to journal instructions.	
<u>Minor</u> REVISION comments	Ethical issue: a sentence about ethical issues should be added.	
<u>Optional/General</u> comments
