SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	English language	
<u>Optional/General</u> comments	I guess that patient 7 is the one who suffered acute cholangitis. He has a history of open cholecystectomy and choledochoduodenostomy (probably complication during the cholecystectomy). Authors could present current literature about major biliary operations like choledochoduodenostomy and their impact as causes of biliary ascariasis.
