PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The article is generally good, without any defect in all section . Also there are no spelling mistakes.	
<u>Minor</u> REVISION comments	Why the author didn't mention some of risk factors which can obligate the patient to seek early medical advice e.g previous delivery of malformed baby ,family history of congenital malformation , previous S.B or recurrent abortion ,NTD, maternal diseases during pregnancy (hypertension, DM) ? Also you must give an idea about medical services which were supplied to the patients in your hospital , as it play a major role in early booking to follow up with you. Can you give me an idea about early intervention , invasive screening you do in your Hospital ?! Type of investigations you ask your patient to do in follow up with you ??
